

Farnham Unihockey & Floorball Club Newsletter November 2018

A Shooting Stars training session before the National Cup (more photos on [Facebook](#))

There's a New Supplier for Floorball Equipment

There's a new UK retailer for floorball equipment, called I Am Floorball with a new website www.iamfloorball.co.uk. They stock Oxdog, Unihoc, Zone, Blindsave, Myfloorball brands with some great prices. Christmas is coming 😊

Club Membership

There are still a few Saturday players who haven't filled out one of our new GDPR membership forms. The new GDPR privacy rules don't allow us to continue to keep everyone updated by email unless you sign our updated membership form so our coaches will be asking you to do this on your first Saturday. It only takes 1 minute to fill out the new form. It can be downloaded in advance from www.fufc.net or we can provide paper copies on Saturday.

There are a few league players who haven't registered with the UKFF. Please could you do this before the next league fixture on the [UKFF website](#). The cost is just £10 for the whole season.

Both Teams Off to a Great Start in the TCL League

The Shooting Stars won all of their 3 matches in the first TCL league fixture on 18th October at Moreton, including beating the national cup winners, Meon Hounds! Scores were IPSE 5-1, Hounds 5-2 and Wasps 14-1. SS Head Coach Andrew Field said "I'm proud of the players following the game plan and we had great fun."

The Fireballs had some new players in their team who performed really well. The team beat their old rivals Hornets 3-0 as well as Wolves 7-1 and Bombers 9-3. Basingstoke Phoenix turned out to be our biggest challenge and we only managed a 3-3 draw and so will need to work hard in training to break down their defence in the future.

The next fixture on 18th November is almost a home match, taking place at Newbold College Bracknell, just 30 minutes away from Farnham. The newly refurbished sports hall contains some state of the art tech as well as a new floor and acoustics.

If any parents manage to catch any good photos at league matches please email them to info@fufc.net so that we can share them with everyone. If you have a decent camera it's always worth changing the exposure settings to under-expose the picture to get a faster shutter speed. Really about 1/200th of a second is needed to avoid blur. We can correct the exposure on Photoshop but can't remove blur.

Wednesday Floorball

The Fireballs are all welcome to come along to our 16+ Wednesday training sessions in Farnborough. There are other youth players there already. Details on www.southernvipers.com
